

# COLSTRAMIN

for Survival of New Life

**PHOENIX**<sup>®</sup>  
PHOENIX HC INNOVATIONS

## Colstramin with Probiotics and Vitamins for **NEWBORN-CALVES, LAMBS, KIDS & PIGLETS**

### COMPOSITION:

Dried Bovine Colstramin  
Probiotics: L. acidophilus, L. casei, Bifidobacterium bifidum, Enterococcus faecium  
Vitamins: Vit. A, D<sub>3</sub>, E & B<sub>12</sub>  
Excipients: Minerals, Enzymes, Dextrose & Q.S.

### BENEFITS:

- It provides dried Colstramin, vitamins and live naturally occurring beneficial microorganisms to improve survivals.
- Colstramin as a source of maternal antibodies and protein necessary for the establishment of good health in newborns
- Probiotics helps in the establishment of beneficial microflora in the newborns
- Lactic acid excreted by Lactobacillus organisms controls proliferation of coliform bacteria and related diseases.
- It supplies highly absorbable vitamins and trace minerals, which are necessary for the establishment of good health in newborns.
- Supports for skeletal and muscle health, which is vital in early life.

### DOSAGE: Oral administration

Lambs, Kids & Piglets: 10 gm/ animal as soon as possible after birth, then 10 gm on 2nd day & then 10 gm on 3rd day.  
Calves: 15 gm/ animal as soon as possible after birth, then 15 gm on 2nd day (Or) as advised by a veterinarian.

**NOTE:** The above dosage can be repeated as per the requirement of animal or as per the health conditions of newborns

**PACK:** 30 gm Oral Syringe

# COLSTRAMIN

for Survival of New Life

## Colstramin with Probiotics and Vitamins for NEWBORN-CALVES, LAMBS, KIDS & PIGLETS

For newborn lambs, kids, calves, and piglets, the "Colstramin" supports immune function, gut health, and overall growth and development. Proper supplementation can significantly improve health outcomes and reduce the risk of early-life diseases and deficiencies. It improves the chances of survival and resilience against diseases.

### Dried Bovine Colostrum

- Immunity Boost: Colstramin contains antibodies (immunoglobulins) that help protect newborns from infections by providing passive immunity.
- Nutritional Support: Provides essential nutrients, growth factors, and proteins needed for early development.
- Gut Health: Contains growth factors that aid in the development of the gut lining and improve digestion.

### Probiotics (*L. acidophilus*, *L. casei*, *B. bifidum*, *E. faecium*)

- Gut Flora Balance: Helps establish and maintain a healthy gut microbiota, which is crucial for digestion and nutrient absorption.
- Disease Prevention: May help reduce the incidence of gastrointestinal disorders and infections by outcompeting harmful bacteria.
- Immune Support: Contributes to overall immune function and can enhance the body's natural defense mechanisms.

### Vitamins (Vit. A, D<sub>3</sub>, E & B<sub>12</sub>)

- Vitamin A: Supports vision, immune function, and skin health.
- Vitamin D<sub>3</sub>: Promotes calcium and phosphorus absorption, essential for bone development.
- Vitamin E: Acts as an antioxidant and helps in the maintenance of cell membranes.
- Vitamin B<sub>12</sub>: Crucial for energy metabolism and the formation of red blood cells.

### Minerals

Essential for numerous physiological functions, including bone development and electrolyte balance.

### Enzymes

Aid in the digestion of nutrients, improving nutrient absorption and overall health.

### Dextrose

A source of quick energy that can help support newborns in the critical early days of life.
